MY

IPad Was at
School

But Heres

Today's

Poem

Friends come and go like snow comes when cold, the world is not a wish grant factory, and the genius are only just fantasy. You are more than just a body. You are a soul. Your body knows what it wants and your soul know when it's time to let go. that friend might turn into an enemy, because friends are only just temporary. The world is not a wish, granting factory.
