Write a response that supports this opinion:  
SCHOOL SHOULD START LATER IN THE DAY.

Write a response that supports this opinion:  
THE SCHOOL WEEK SHOULD BE 4 DAYS LONG.

Blank lined writing area for the 'This' prompt.

I think the school weeks should be four days long because then our brains are not as tired. The four days could be an hour longer, then we can get way more stuff done. Also, if we only had 4 days of school we could also not have as many snow days. Instead, we could just make up for a snow day by adding a Friday. The last reason is that people miss so much school for vacays on Friday. Now, we could just have them miss no school. This is why I think we should have four days of school.
