

THORACIC LIMB

Shoulder

adduct/extend shoulder
 [subscapularis - subscapular n.
 coracobrachialis - musculocutaneous n.]

flex shoulder - teres major - Axillary n.

extend shoulder [supraspinatus] suprascapular n.

flex/extend + abduct [infraspinatus]

medial

flex shoulder [deltoides teres minor] Axillary n.

lateral
 shoulder joint

Brachium

flex elbow
 [biceps brachii (also extend shoulder)
 brachialis] musculocutaneous n.
 elbow joint

extend elbow

[tensor fasciae antebrachii
 triceps brachii
 · long · lateral
 · accessory · medial]
 anconeus
 Radial n.

caudal

cranial

Antebrachium

caudo medial

cranio lateral

Carpus

flex carpus
 [Flexor Carpi Radialis median n.
 Flexor Carpi Ulnaris ulnar n.
 Ulnaris lateralis radial n.]

extend carpus

[Extensor carpi radialis
 Common digital extensor
 Lateral digital extensor
 Ulnaris lateralis] Radial n.

caudo medial

cranio lateral

fetlock joint

Digit

flex digits
 [Superficial digital flexor median n.
 Deep digital flexor ulnar n.]

posterior joint

palmar

cranial

coffin joint

extend digits
 [Common digital extensor
 Lateral digital extensor] Radial n.

palmar

pelvic limb
