

Hey, ima make a short animation.

"Better Luck Next Time Meme"

I need to draw an Oc of yours that gives player vibes.

Theme is my oc (basically me  ) is asking your Oc out, but your Oc ends up rejecting my loaf  
better luck next time
basically hehe

Your Oc can literally just be you, but I need a full body reference with color and details. Can be simplified too, I'd deeply appreciate it 

I know I've said in the past that I'd make an animation for someone, but my progress has been deleted by the app being updated, and my motivation literally died atp 😭😭😭😭

I do feel like I'll eventually have time during the upcoming spring break, so I promise to at least make this one! I'll let y'all know when I announce it in a random post from the future 😊🙏🙏
