

- Music has something that we share
- Some people feel enriched to play music and some feel enriched to listen to music
- Technology is moving super fast
- People want to make it feel real by connecting with the music being played or the person who is playing a instrument or singing a song
- You can express music or think that music is entrainment
- Reasons we love to listen to music because music makes you get pumped up for sports, helps people calm down, and helps people relax
- Music makes people feel the following feelings: happy, sad, sad emotional(like sad crying), scared, and happy emotional(like happy crying).
-
