

It's Always Been You

Phil Wickham

You saw me first
You let me in when I was at my worst
The moment when I heard You say my name
It's the first time in so long I'm not afraid
I'm not afraid

You are the voice that calms the storm inside me
Castle walls that stand around me
All this time, my guardian was You
You are the light that shines in every tunnel
There in the past, You'll be there tomorrow
All my life, Your love was breaking through

It's always been You
It's always been You

My northern star
Your love will be the compass of my heart
Oh, I just wanna be right where You are
Right where You are

You are the voice that calms the storm inside me
Castle walls that stand around me
All this time, my guardian was You
You are the light that shines in every tunnel
There in the past, You'll be there tomorrow
All my life, Your love was breaking through

It's always been You
And it's always been You
It's always been You
It's always been You

Who stood with me in the fire?
It was You, it was always You
Who pulled me out of the water?
It was You, it was always You
And who carried me on their shoulders?
It was You, I know it's You, You

You are the voice that calms the storm inside me
Castle walls that stand around me
All this time, my guardian was You
You are the light that shines in every tunnel
There in the past, You'll be there tomorrow
All my life, Your love was breaking through

It's always been You
And it's always been You
It's always been You
It's always been You
It's always been You
