

Can someone help make me a helluva boss style character. Its a bisexual hellhound named stygian. It is slightly inspired by queen bee especially with the sassy eyes and teeth. Biological gender is a male and colors are red grey pink and a bit of orange. Stygian is also slightly inspired by loona too. Because... well... theyre all hellhounds. But if you can make sassy and depressed eyes with a happy face with sharp teeth just like queen bee, i will be rllly happy. Stygians limbs are pretty thin too. Has a bit of a dark mysterious and funny sassy personality. Make it kinda like angel dust too. I love those characters. And combined, i think this oc will be amazing. I think that will be rllly cool. So if someone could do that, ill be rllly happy.
