

Teacher/Class Evaluation Please consider well these questions and help sharpen me as a teacher and my classes going forward

- **Did you perform up to your expectations this year? Why or why not?**
- **What did you like best/work best about my teaching/this class that you would suggest I keep doing for future classes (specific please)?**
- **What about my teaching/this class would you say I should change to make it better for future classes (specific please)?**
- **Who are two classmates that you think really made class better for everyone else?**
- **Any last thoughts?**
