

Revolution in on for the year 2020

What is Geography?

1. Define the following types of Geography:

- Human geography is: to do with humans
- Physical geography is: to do with natural landscapes
- Environmental geography is: where humans impact

2. Name 3 ways that fieldwork data could be presented:

- graphs
- bar chart
- map

Cambridge

1. What makes Cambridge a good place to develop as a town?

it's flat there's lots of job opportunities and there's a river

Ecosystems

1. Name 3 biomes:

Forest

river

Savanna

2. How is the baobab or acacia tree adapted to the savanna?

baobab tree is adapted to the savanna by the trunk absorbs water and stores it the bark protects it from bush fires. the trunk is slippery so animals can't climb it.

3. How is the wildebeest adapted to the savanna?

Calfs can stand the day they are born. long tails to waft & fly away.

4. What are the threats to the coral reef?

bleaching, plastic in the sea and over fishing

5. Outline some solutions to these threats?

there could be less fishing and don't throw plastic in the ocean.

### Hazards

1. Name 3 weather hazards:

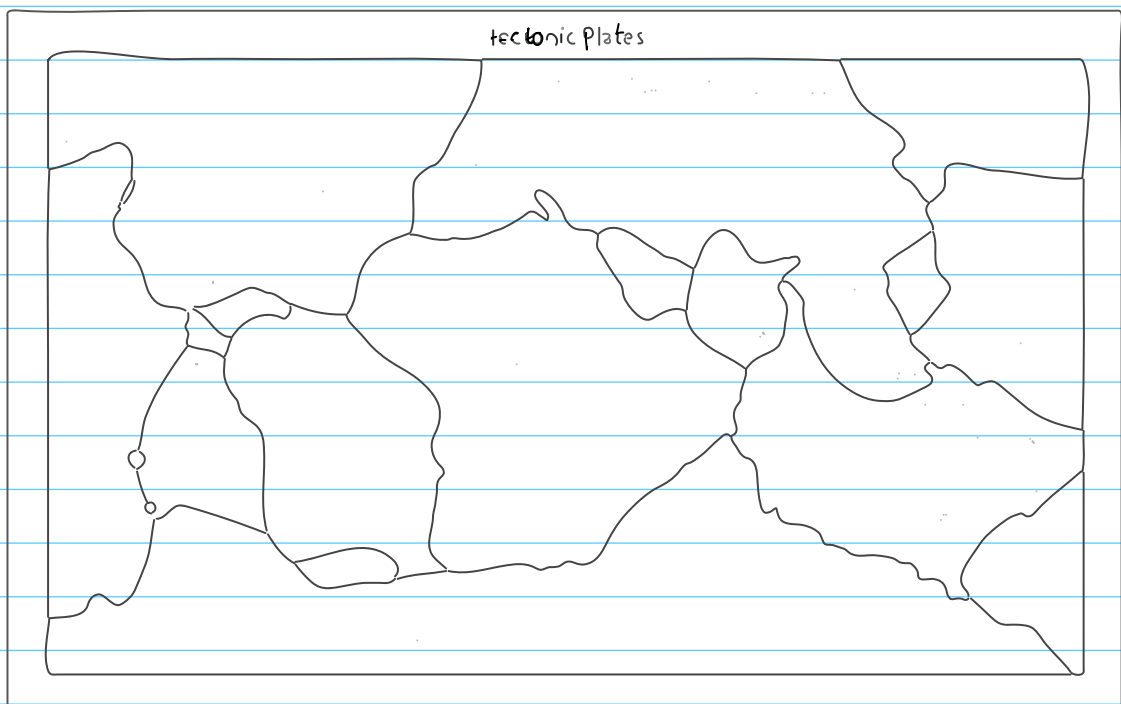

- lightning
- tornado
- hurican

2. Name 3 tectonic hazards:

- Volcanos
- earthquacks
- tsunami

3. Name the 4 layers that make up the Earth's structure:

- Crust
- mantel
- inner core
- outer core

Number for colour code the tectonic plates listed below - then label them (or colour them) on the map

- |                                         |                                           |                                               |                                           |                                       |
