

What up yall!!! I CANT WAIT FOR HSA TO START (special thanks to @sparra for making it happen!!)

I wanted to make a backstory/ character description for my OC in the series, Kylie. This is for anyone who wants to know.

As you know, Kylie has a dragon companion by the name of StarWatcher (my nightwing oc \*wink\*) they have been together since she was four. Kylie's family found it hard to support her and StarWatcher's special bond so they enrolled her in HSA. Kylie herself is basically human, the only difference is she can call on some of StarWatcher's abilities (such as Night vision and heightened senses). She does have a telepathic link to StarWatcher.

Thats her back story, onto personality and habits!!

She is a friendly person but normally hangs back out of the crowd. She's smart and can be funny but extremely protective over her friends. She is especially kind to the younger kids, like the 9th graders. She's a 11th grader. She is not a rule breaker per say but she did alter her student uniform with some tiny dragon details that are not very noticeable (like on skirt or sweatshirt back). She loves flying around campus on StarWatcher and reading. She also draws a bit but not much since she's not confident in it.

THATS IT!!! if yall want more let me know in the comments!!
