

Mark the level of your pain when you...

(Feel free to add more!)

Step on a Lego

never stepped on a lego by but I imagine it would hurt

Paper cut

been lucky enough to never get a paper cut but I almost have multiple times

Poke your eye

I've done this way too many times to count

Stub your toe

especially when it's your pinky toe

Ears pop

I hate it when this happens bro

Something is stuck in your fingernails

meh it's more annoying than painful

You burn your tongue on something

feels weird to eat after

Get a shot

doesn't hurt anymore

Cut yourself cooking

meh
