

Free criticism space! Please give me criticism on my art or my personality on this app, I want to improve! Do NOT say anything nice in the comments or anything, because then it will seem like I'm fishing for compliments. If you have nothing to say, skip, but if you have ANY criticisms or ideas for me, PLEASE comment or remix this post! Keep in mind I will NOT get my feelings hurt, this is a means to improve myself! Thank you!
