Hi guys I was commenting on a post and I clicked send and it says I have exceeded my comments per hour. ITS 4:14! So...sorry if I don't comment on something. Also does anyone know how many comments you can do per hour? Another thing, why is notability taking away stuff that we all want?! Like first recents now this (okay if it came first and I just didn't notice don't go at me)! What's next, limited amount of posts per account? Like...creative freedom down the toilet...
Please say I'm not the only one who just figured this out...

I just realized it's like those YouTube shorts POV "words per day" and that stuff...(everyone's like what is she talking about) never mind then
