

It was a gloomy day
But for Forestfire it wasn't that way
Her friend were nowhere to be found
Forestfire looked and looked even underground
"Man, where has everyone gone?" She wondered
But then she was drawn away from the plunder
Then in a yelp of fear
Forestfire was almost shed a tear
Then out of Bonesburryway Forestfire ran
"Wait! Forestfire! Come back" And Mia was sad
And again, Forestfire ran again
And Mia was alone and felt a pain
Alone, Forestfire then hear a word
A word, so loud it was she didn't know what she heard
Then Mia came up, and gave Forestfire a hug
Forestfire was shocked then she remembered the bug
Then all of a sudden in the bundle of a second
Forestfire was accepted
