

To (yk who u r)

Why would u do that? He told me u wrote that note, gave it to him, and signed it with MY name. That's not cool.. I DONT even like him, know him, or talk to him.. i talked to him during the science project because I HAD to.. not bc I wanted to..

Js know that isn't smth friends do, but whatever. I don't care, he doesn't care, im just upset that you told me to give him the note for u and i did. THEN u went off and wrote a note for Valentine's Day and signed it w/ MY own name..
