

TEMPERATE
forest
rain wings

Wot
head cannon
tribe
aka made this up

They live mainly on the outskirts
of isolated islands in between
Pantala and Pyriha. They exist
from dragon's getting carried out
into the sea and "lost".

on the
small
and
lean
build
with
larger
necks

they
have
fur
to protect
against
the sun
much like
an Ottersson
beavers fur.

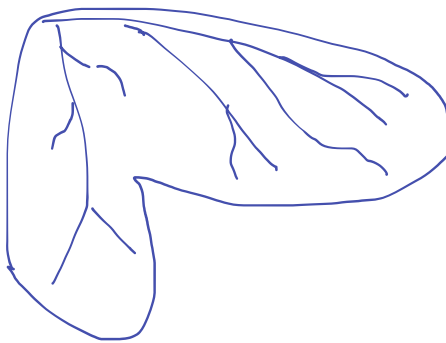

talons
like
falcons or
POSSONS

evolved to
look more
woolly

Most closely related to
rain wings and silkwings

They have
internal clocks
much like silkwings

Their
wings
resemble
silkwings

however,
they have
rainwing-
like fangs
↳ venom

They have
large black
eyes
to help them see in the dark
