

Rating art apps bc I'm bored ✨

-Procreate: 4/5

It's a really good app, I just think the amount of unnecessary brushes gets confusing and you have to pay 10 bucks plus extra money for other, useful brushes (I refuse to spend thirteen dollars on a bRAiD bRusH BUndLe made by some YouTuber)

So like.... I'm cheap. But hey! It's features are organized unlike *COUGH COUGH* the one under this. If you have ten bucks to spare, get Procreate it's worth it.

I use procreate a lot

Also download Tools for Procreate it's free!

-Clip Studio Paint: 1.5/5

The menu is so confusing 😭😭😭 plus you have TO PAY TO HAVE YOUR DRAWINGS SAVED- NTY. And it's not a one time payment- monthly fees smh

And you still have to pay for some brushes :/

I'm not paying a monthly fee :///

Never using this again.

-MediBang Paint: 4.7/5

UNDERRATED. It's organized, has a bunch of features, and FREEEEEEEEE!! No in-app payments or anything except to like- remove ads. It would be a 5/5 if it didn't have ads every time you closed out- but ig you can turn off your wifi to cheat the system or smth. Besides they're 5 second ads so it's fine. It's also a bit more confusing than procreate, more for intermediate/advanced artists. I also have problems with the fill tool but that might just be me ;-;

Also you can post >:0 I prob won't tho

I'll use this app sometimes :)

-IbisPaint X: 3.5/5

It's pretty good, I just feel like MediBang is better. Something feels off about ibis idk..- it's free tho which is cool! Definitely will keep using it but not often.

Part 2 maybe????
