

I wanna introduce a villain names "the Azure lion" mainly azure I drew him in a re-draw scene before but that was the scene before he got his emperor in my

own style plus a little explanation of him also spoiler warning but no one on this app really watched it so 1st is in the fandom you either hate him or love him so people hate him because he trapped swk in the scroll (but it wasn't really his fault) and he kinda took over the jade emperors place and dethroned him which means he has full power of the world 2nd we don't really see his full outfit so the is the closest thing I could

think of 😞

also the fact that they made azure a villain when he's a breed of cat like I understand he's from jttw and they couldn't choose but if it's a cat villain of course I'm gonna love them like I love tiger claw one of my fav villains in Tmnt forever also I mainly think it's because they have big paws <3

When I mean word I mean the Morta, Celestial and another word.
