Portal 1

Portal 2

BoXcat

molecules

travles beyond
lightspeed

0.000000t
seconds
later

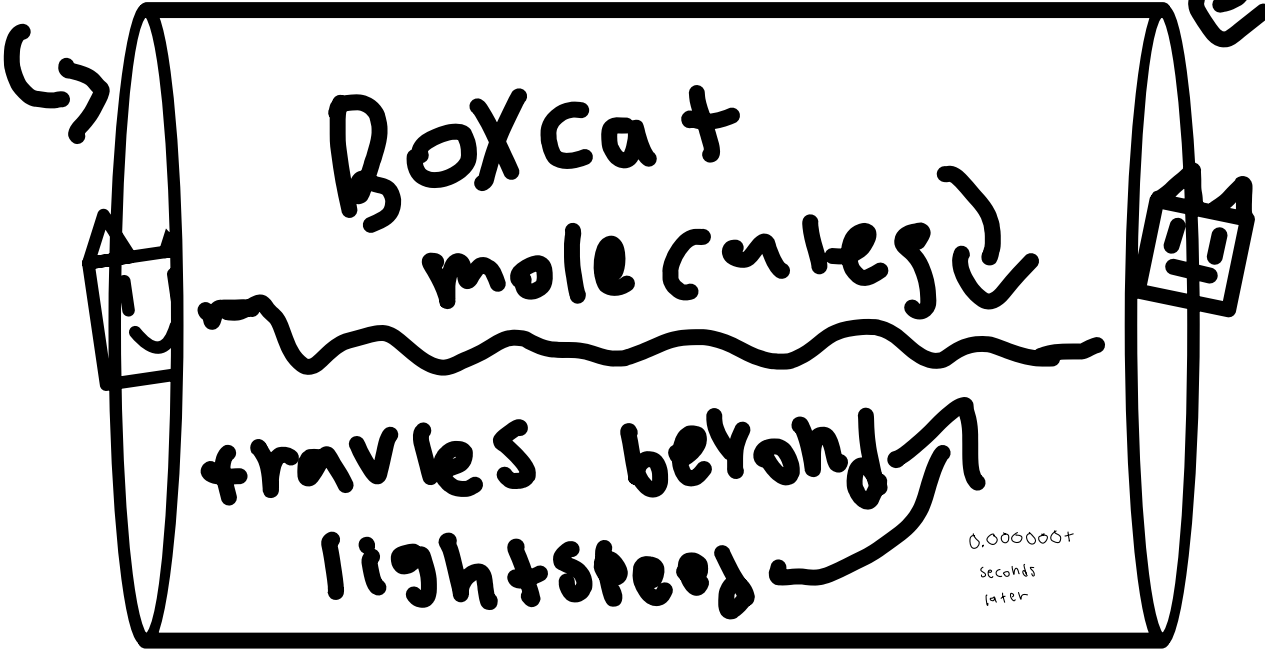

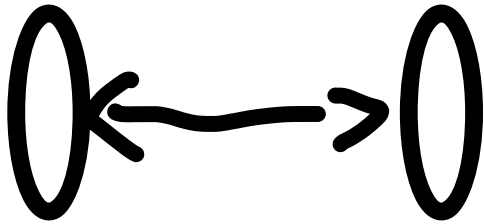

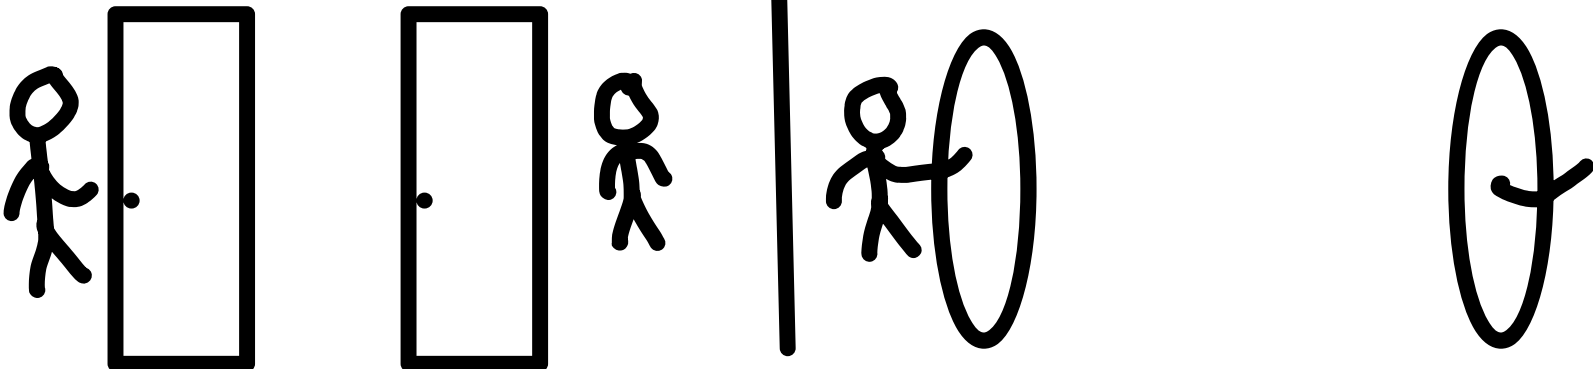

Portals

no matter where
portals are they connect
like walking through a
door

OR

Door

Portal
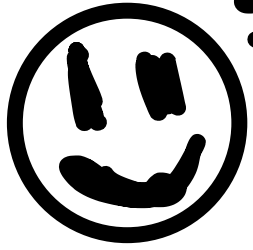

Doors and Portals
work the same
but portals are
for LONG distance
while doors are for
SHORT next room
distance

Doors | Portals

exit

Gotta rush

AHHH
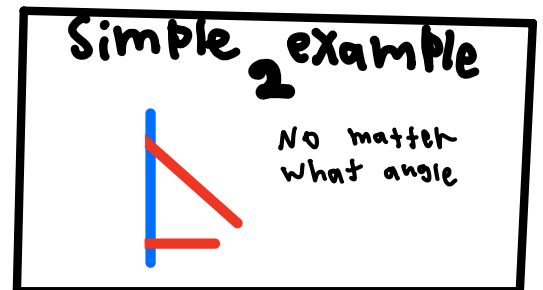

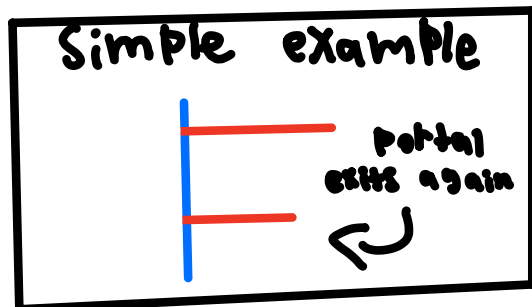

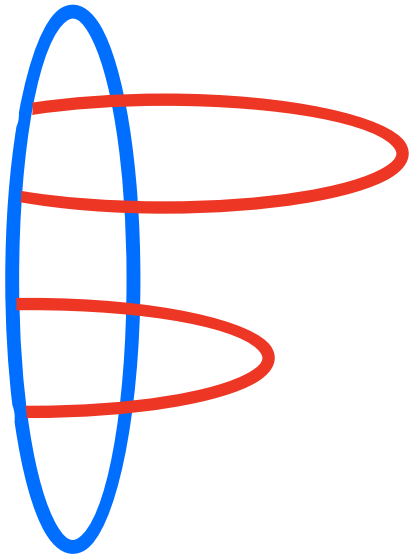

AHH

What happens when a portal enters a portal?

the portal re-exits the same portal

Simple example

portal exits again

Simple 2 example

No matter what angle
