Backstory: Baimao was born an ordinary cat, with no magic. Her first owner, an elderly man, was very kind to her. However, after he passed on, her new owner was cruel and abused her. She was often left in her cage with no food or water for weeks. Eventually, her owner left her in the cage and never returned, even after months. She starved to death, but was mysteriously given the gift of magic in her last moments. After breathing for the last time, she went limp for a few minutes. Then, she suddenly began to breathe again. Later, a girl named Starr found her, rescued her, and later adopted her. Since then, she has mastered her magic (with the help of Starr, Ember, and Snapper) and is able to transform into a human. She has also learned that she has eight lives, one having been spent after she starved. She wishes to seek out other animals like her, who can transform into a human. She also wants to learn more about her magic.

Personality: Baimao is somewhat insecure and timid. However, she can stick up for herself or her friends if needed. Being a cat, she has a very cat-like personality, namely preferring to keep to herself or her close friends.
