

Camp went by pretty fast after that. We took the twins back to camp and Astraea came to get them that next day. It was bittersweet for me. Seeing the kids I had raised for the past three years leave with their real mom. but, it was easier thanks to Grayson. He was still a bit of a monster but I loved him to bits. He grew up to be more of a bully but he was sweet at home. The opposite of at camp. Know he was super ADHD like Cole but he seemed more in control at home. He was a huge help when his baby sister came along. thats right. Audrey came along three years later. She was super sweet and Dev always said she was my blonde haired copy. Astraea moved closer to us so we could still see the twins. they also got a new addition to the family. Nerth. He was like the in between of Evelyn and Cypher. Anyway, I settled into a non adventure life and tried to do some good. Once Grayson was old enough, he stayed at Camp even though he technically wasn't a full demigod. He stayed at Dev's cabin. We took Audrey with us to New Rome to live with Percy and Annabeth. Nika visited a bit but we eventually did really get out of touch. we would touch basis every Christmas but that was it. She was going through her life and I was going through mine. Cypher and CJ eventually got married and the story of it still makes us all laugh. Grayson grew up and even started falling in love with a Hecate girl whos was really nice. Cypher gave me all the updates. Audrey grew up in camp too and excelled. She was a great warrior and strategist. She taught some of the kids now and had meet a boy as well. A Aphrodite kid. He was nice as well and he reminded me of Bexter. At this point in life, me and Dev just hoped to grow old together, surrounded by friends and family. I sighed as I sat on my porch and watched the sunset. I thought back to my younger days. I smiled at all that had happened. Ive had a good life and I still have a lot left to live. I think to myself and enjoy the sunset. The end!!! Hope you enjoyed Lura's tales! Its been amazing to write with the incredible @hogwartsavenger. Follow her! And thank you to everyone who read this. If you want to read more by me, stay tuned for Trapped, my original story!
