

Copied, pasted, and edited my 'High One-Geo' drawing

Trees for antler-like horns:
She can actually photosynthesise

Metallic green eyes:
No pupils

I'm too lazy to colour her whole body... If anyone wants to know, she's  brown(x2 layers) using the highlighter, with 1 extra layer of the same brown in the shadowed regions and only 1 layer of the same brown on the inside of her ears

Appearance: Dendro in her High One form looks like a huge somewhat reptilian humanoid creature with long ears, metallic green eyes with no pupils (she is not blind, though), and trees as antler-like horns. In all her forms, she is light brown, with trees and other plant material as ornaments. (Anyone wanna draw her?)
