

Kafa iskeleti <Cranium>

Kafa Kemikleri <Ossa Cranii>

Neurocranium

- Os frontale
- Os parietale
- Os occipitale
- Os temporale
- Os sphenoidale
- Os ethmoidale

Viscerocranium

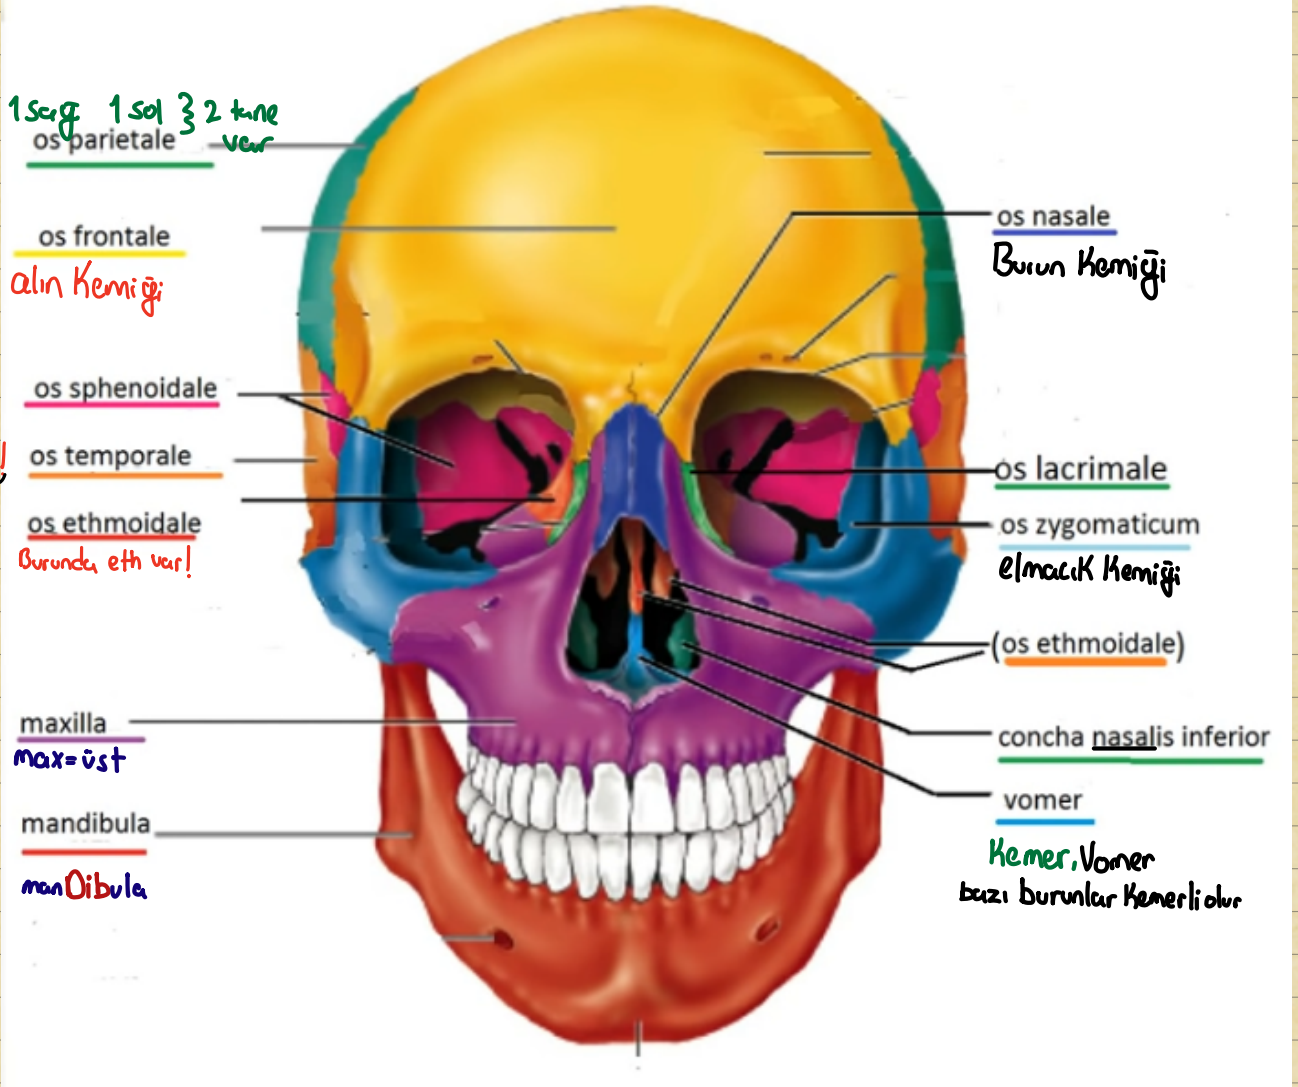

Vüz Kemikleri:

- Maxilla
- Os palatinum
- Os lacrimale
- Vomer
- Os zygomaticum
- Os nasale
- Concha Nasalis inferior
- Mandibula
- Os hyoideum

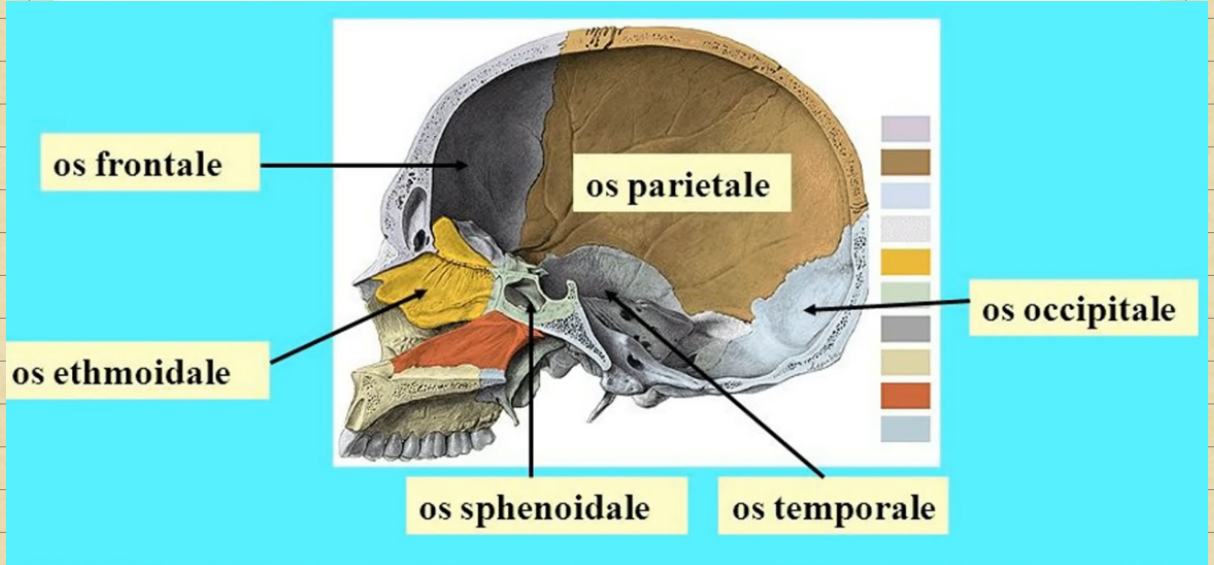

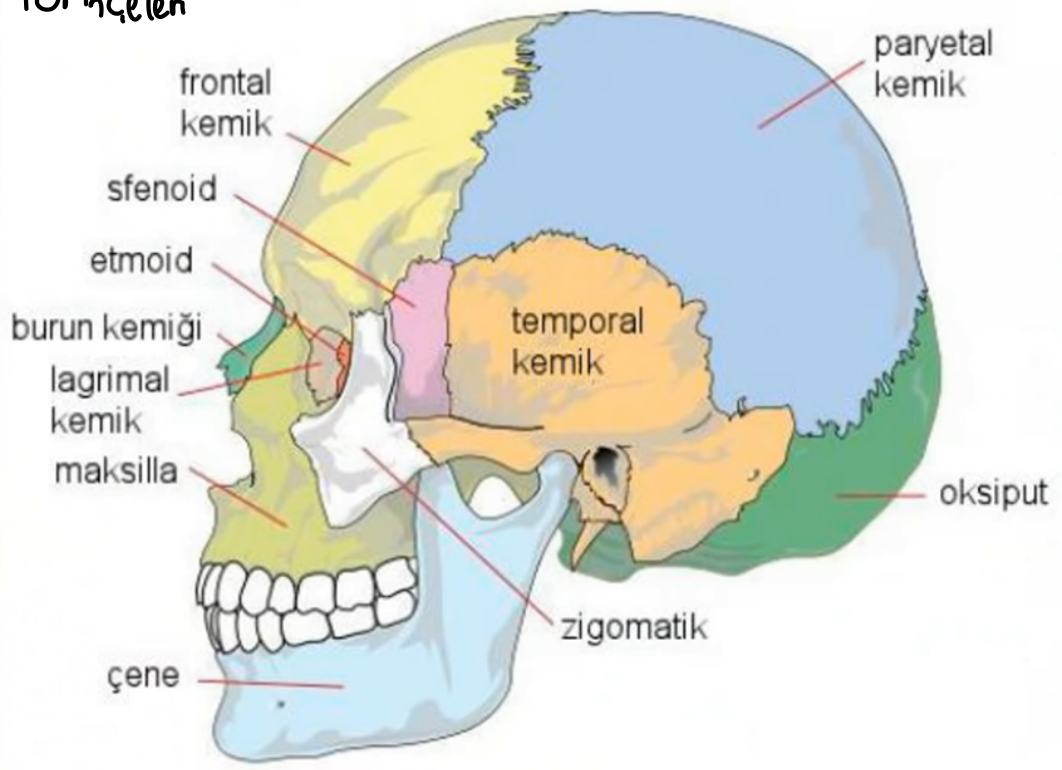

Kulak Kemigi:

Ossicula auditus

6 tane

Türkçeleri

Os Frontale:

3 parçadan oluşur:

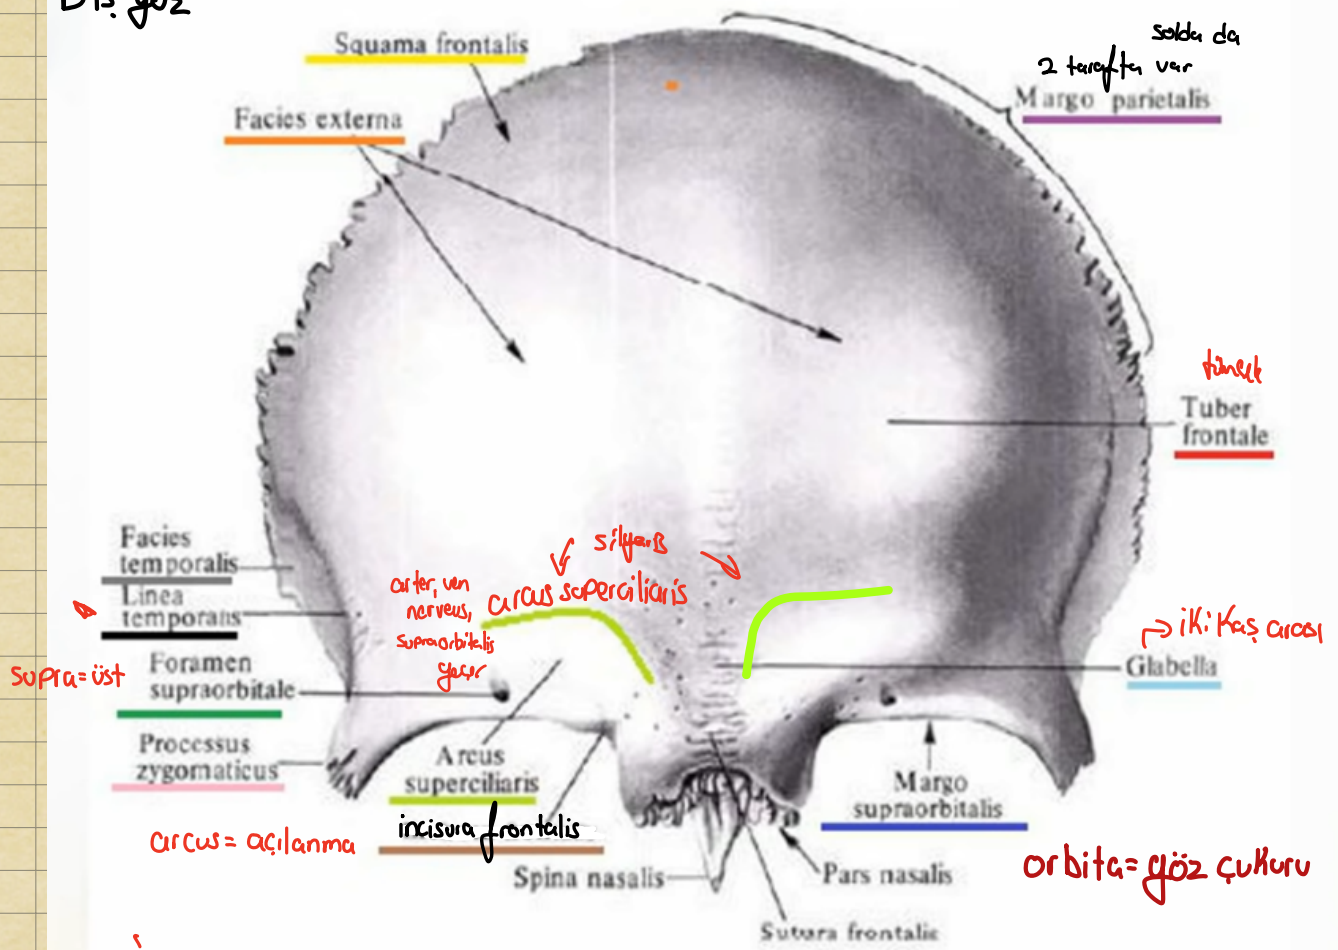

1) Squama Frontalis

2) Pars Orbitalis

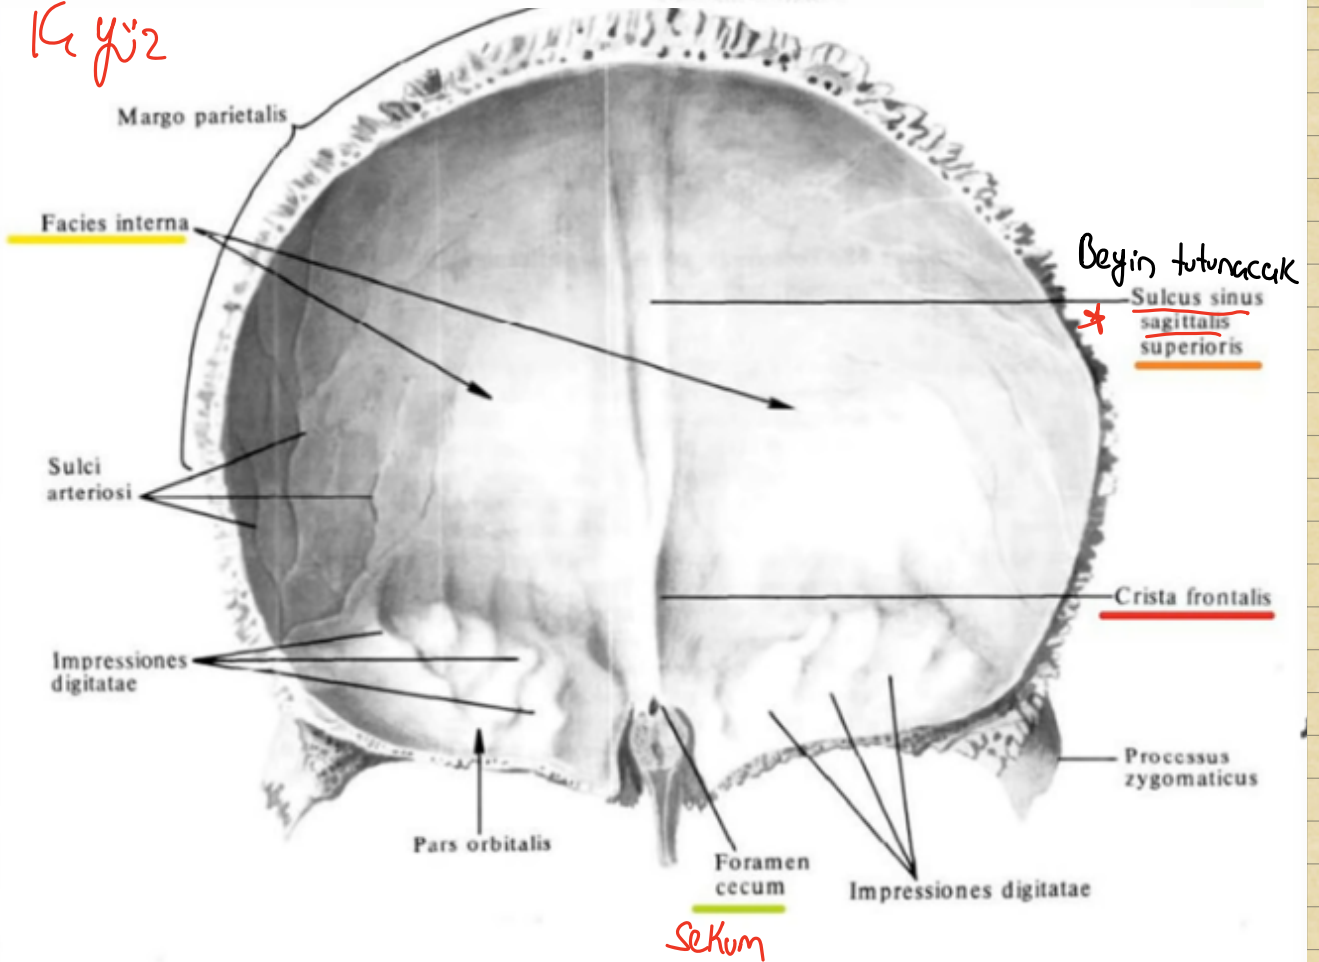

3) Pars Nasalis

1) Squama Frontalis

Dış yüz

İç yüz

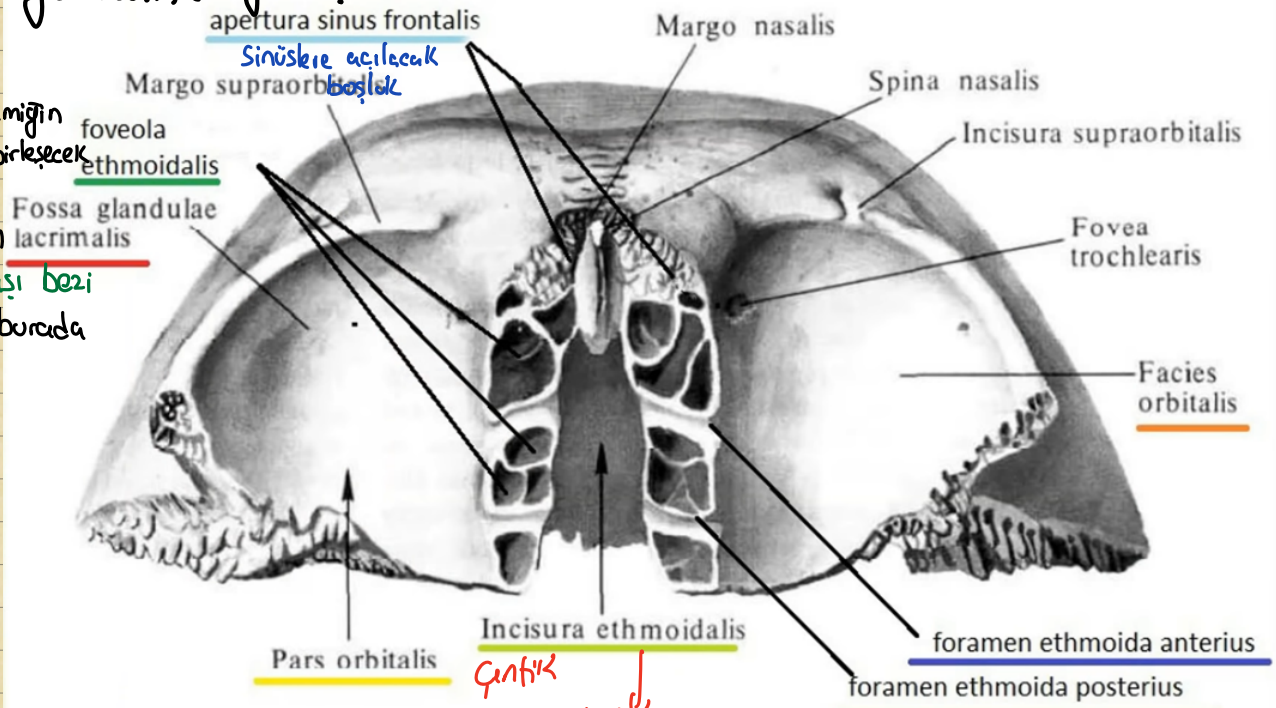

2) Pars Orbitalis

inferior (alt) 'dan görünüş: apertura = açıklık

ethmoid kemigin boşluğuyla birleşecek

(glandula) göz yaşı bezi burada

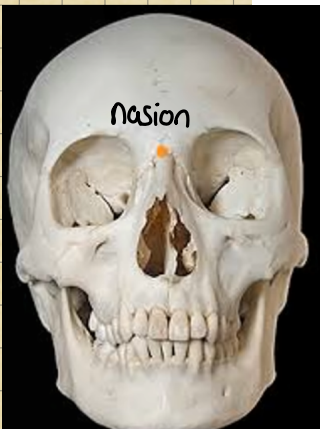

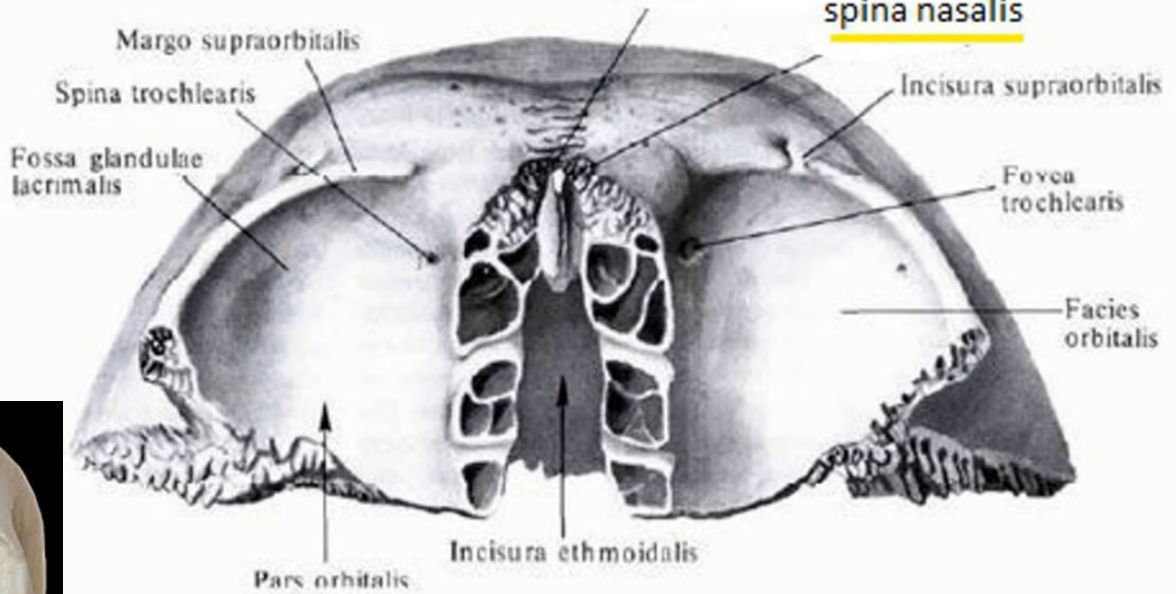

Çentik
Ethmoid kemigin çıkıntılarıyla birleşecek foveola aracılığıyla

arter, ven, nervus geçiyor
fför kokusunu burun boşluğuna taşıyor

3) Pars Nasalis

referans noktası
bir nokta
nasion

dikensi
spina nasalis

Orbita üst duvarını frontal kemik oluşturur ama yalnız değil.
