

# how to add fonts

1. download the font you want (file format: .ttf or .otf).  
→ my favourite site: [www.dafont.com](http://www.dafont.com)
2. go to App Store  and download iFont .
3. unzip the file by clicking on it.
4. open the folder.
5. click on the file .ttf or .otf and tap on share .
6. select the iFont  app.
7. after importing, click on install .
8. open settings → tap on „Profile Downloaded“  
→ tap on install → if you have one, enter your device passcode → tap „Install“ in the top right corner → tap again on „Install“ at the bottom
9. your font is now installed!
10. restart Notability .
11. DONE! ^^
