Guys, this is how I KNOW people don't pay attention to my posts! I posted a note that said check remix and people just blindly liked it without even lookin at it (sad)

the people who actually pay attention to artists post actually checked the remix. 😤

it makes me very sad because now I know people just tap the like button without even looking at the note, how do you I SLEEP AT NIGHT?! ☹️

anyways, check my last note that had a remix on it, cuz I spent from 9:00pm to 11:00pm writing it, and I also woke up early 2 write it cuz my parents r annoying (sorry mom and dad)

I also feel like you guys blindly like posts when there's art on it, but if there's text, you immediately read it as if I'm gonna expose some juicy art stealers or drama 😃
