

Ok ok so in Australia we start school on the 31 of jan or first of feb. you have ten weeks then a 2 week break, this happens 4 times each year (so 4 terms each year) then you have your summer/ Christmas break.

So you start kindergarten when you are 3 or 4, depending on what part of the year you are born. So I am born in march 2013. I started kindergarten at age 3. So if you were born in year 2013 jan to June, you would be in the same grade as people in 2012 July to dec. then if you were born 2013 July to dec you would be in the same grade as 2014 jan to June. So basically the financial year system

Tell me your birthday and year of birth if you are confused
