

You know I don't believe in ghosts or letting people close I'm good at letting go, you kiss my lips until there colder think you're in control but I should let you know

Well the good guys don't always get the glory can't you see the warning signs

I can make your life a living hell if I wanted to wanted to wish this was a love you never felt and you know it's true know it's true love me love me trust me with that heart of yours feel so heavy lying on the bedroom floor I can make your life a living hell if I wanted to wanted to

Chew you up and spit you out and still you come around so I can watch you drown hate when you tell when you tell me that you'll wait like you think that I can change when I've always been this way

Well the good guys don't always get the glory can't you see the warning signs

I can make your life a living hell if I wanted to wanted to wish this was a love you never felt and you know it's true know it's true love me love me trust me with that heart of yours feel so heavy lying on the bedroom floor I can make your life a living hell if I wanted to wanted to

I'm haunted by the words you said when I can't say that I feel the same admit you'll always be alone and baby you should know I'm only gonna ghost

I can make your life a living hell if I wanted to wanted to wish this was a love you never felt and you know it's true know it's true love me love me trust me with that heart of yours feel so heavy lying on the bedroom floor I can make your life a living hell if I wanted to wanted to (if I wanted to)

IDK why I did this but it was kinda fun. I have listened to two-two hour loops of this song so I have the lyrics in my head.
