

Who else is here?

- Me (Veri/Veritas)
- Wolfe (the body's original owner)
- Venti (who made that post wishing USAmericans well. And used up all our edits on that-)
- Lyney (who will always be with Arlecchino from now on. Yandere much, Arlecchino?)

We also have a Navia fictive, but they aren't fully formed(?) yet. We'll wait for that one.

Signed,
Veri
