

I'm literally  
 so done w drama  
 at my school it's  
 so stupid like  
 there's something  
 new every day  
 please chill omg

I honestly can't help  
 but laugh but it's gone  
 on for too long like is  
 this a TV Show?

like the things  
 they said abt my  
 friends are so weird  
 (and also prob me)

best okay I crash a  
 few jokes every now &  
 then but I don't actually  
 do anything

It's the way we agreed  
 to be on okay terms but then  
 they told fake things after like 2  
 weeks  
 like I'm literally trying to move past?  
 you should want to as well and  
 not be somewhat petty/start  
 rumors/hack accounts/get the  
 principal involved for fake things  
 and the way they all talked  
 bad about everyone they're now  
 friends with and pretty much sided  
 with us, supporting us?

I still have the "we all love you"  
 "everything will be alright" "I'm here for your  
 texts"

It's the whole change that is crazy for me  
 but do whatever ig if everyone is being  
 petty at this point idc

I just wanted to move past and be on at least  
 okay/neutral terms but then I started getting  
 glared at/avoided

but what did \*I\*  
 personally do to others  
 that make em not like  
 me huh - like I understand  
 one specific person (then again  
 I barely did anything there?)  
 but everyone else is so  
 ticked off like okay

what  
 they said  
 to me

what they  
 said barely gave  
 me any context  
 and blamed me the  
 whole time  
 "I hexed you"  
 "where did you bury your  
 cat" - the DAY AFTER HE DIED  
 Okay alright? do you  
 want a gold star?
