Sorry man, I don't know if ya'll do this or sum

But some girl on Roblox or some girl ik irl was pretending to be black during black history month on rblx, no cap it just annoys me. I understand you want this respect and all that but why? It's just sincerely annoying. Especially since your white irl and your orginal avatar was white as well. Now, I'm sorry if this offends some of you but personally I don't like when people do this. Mb again $\stackrel{\square}{=}$
