

Guys! @karenjabloiskithe_hippest_boss is a creep! They went on my post and said some weird things. They also went on @we_love_pigeons69's post and posted weird things. Also, in their status it says " if ur under 20 hit me up". Creep vibes. I reported the comments and it's not working so I'm going to report their acc. If you're (the creep)reading this, please leave notability. No one wants creeps on here. So leave. If anyone else has had @karenjabloiskithe_hippest_boss comment weirdly. I think we should stand up against this person and report them. Cuz this was what I was afraid for when I joined notability.
