

Does anyone know how to get a sore throat intentionally? Next Monday my STEM (Technology teacher) for the semester is assigning us to make a song with these instruments in our groups he assigned us (Mine is a trumpet) But anyways so I don't know how to hook up my trumpet to make sounds and I don't have anything like everybody else does to hook up my trumpet. And we have to play our songs in front of the class and I want to skip school but I don't wanna lie to my parents so this is all I can think of LoL.
