So for the pass few MONTHS I've been getting little notes in the most awful handwriting I think I have ever seen that say "I like you" but no name which is kind of silly cause what's the point if I dont even know who its from right? Well there other notes like are you coming to church on Sunday so he obviously goes to my church and when I got that note my worries were confirmed THE WEIRD KID LIKES ME 😬 lets call him K and today during passing period (in between periods) I went to my locker to brush my hair for my crush lol (not K) K is really short so I couldn't tell but my friend lets call her E says leave Emmi alone K and I turn around and he's staring at me not even two inches away from me mid sniff!!!!!!! Like personal space and ew get away from me you rat!!!! Someone help me K is very scary chopped the frogs head off during dissection and broke his Ipad for the 7th or 8th time today I'm scared for my lifeeeeeeeeeeeeee wish me luck
