

What is your top fictional character you would date?  

Prob Chongyun from Genshin (mainly cos age gap not that big)  
(wait Chongyun is the exorcist Cryo boy who's friends with Xiangling right?)

If you broke a bone in your life, what bone was it?  

Nah I haven't 😊

What shows do you like to watch?  

Ninjago, The Masked Singer, Masterchef (any),
a lot of game shows

What do you do when your bored?  

Art, argue with AI (don't ask Imao), more art,
scrolling through random profiles on Notability
(and studying Imao)

What's your fav music type? (fav songs)  

Kinda hard to pick one, I do like fan music tho
(as in fans of games and stuff make songs—DSMP
songs and FNAF songs best in my opinion)

I also like OSTs from video games (Genshin
music is so good) and movies

Currently my fav song is In My Head by Derivatkat
(based on c!Ranboo 😊 Also the Ranboo rebrand is rilly cool)
