

Doctor: Hello D-123 have a seat. You deserve to be let free. We decreased the time you stay here to 5 days left. How does it feel to be the only survivor of Scp-087?

D-123: it's been... hard... I can sleep without seeing that face. I can't take this.

Doctor: we will have spies reviewing you for the first 30 days after your release. I have been intact with the security team and saw you tried to [REDACTED] yourself the other night.

D-123: I. CAN'T. STOP. SEEING. IT. EVERYTIME I BLINK ITS THERE!

Doctor: I see. Well, we will give you mind wiping pills so that you don't remember what you saw.

D-123: what I saw CANT be forgotten...
