I am SOO tired if dealing with the same shi/ everyday. Like I literally got into a little ball and cried

and coughed my life away. I feel rlly bad cuz I feel like I making my friends hate me and my gf. I hate

it when they always bring her up in random conversations and go 'see look! Ur putting her b4 me!'

And they know how much I hate it and amount of pain I feel when that happens. Like are you

serious rn? We're in public can you calm down? I'm literally trying my best and my hardest to fulfill

your needs, my grandmothers needs, my family's needs, my gf's needs, and mine especially. Give

me some time let me think and try to change this. This is literally every day please stop. I hate

having to go down the same road every fkn day. I am done. i am drained. i seriously need a break.

all this commotion is WAY too much. i worry way to much abt you then i do myself. let me rest a

little bit. i mean I've got to deal with every time I look at tht one girl all the pain and memories flood

back. I see her everyday and she literally sits next to me in choir. Do yk how difficult it is to sit there

and smile at her when in every bone in my body I wanna just yank her hair out? Please. I beg.

Unless my gf is doing smth to me tht I have no clue abt, I want no negative comments or anything

abt who I should've been with or stayed with. I left them for a reason, and some reasons to better

myself. I rlly don't wanna go down tht route. I'm stressed enough as is, and I already have doubts. I

overthink and yk that. So why would you sit here and go "I hate you two together." ?? Please. I'm

begging you I want all this to stop. It's not funny or laughable or anything. It's making me doubt

myself all over agian. So leave that topic WAYYY in the back of ur mind. Ima go now cuz ik you guys

are tired of my problems but I needed to let that out. I love you, and bye❤️
