

The only way I could do that was if you had to do a lot more work and then you would be done by yourself so you would be fine and then I could just go home to you if I needed you and you could just come over here or I can just go home if I need you can just let us go home if we need you guys are you still working I don't want you guys going anywhere to go I just don't wanna go anywhere I just wanna know that you're not working or I just wanna make sure that you're not doing it for you and you can do that I just wanna see if I need you and you can go home to make it to the the house I just wanna let me go home so you can do whatever I love and then you know that I love and you can come home to you can come to my place.
