

After 5 million years, ur not-so-local Genshin fan is back!
With actual stuff to say!

First up... Kazuha's rerun is in 4.5 second phase!!

I'm at 50 pity with guarantee so I'm pretty confident. He's coming home!! Only problem: I'm not even at Inazuma yet :(And I don't think I can fight Maguu Kenki (idk how to spell it lol)

Also I did dendro hypostasis boss fight for Nahida, only to find that I don't have enough Kalpalata lotus (again idk how to spell) to ascend her :(

Unrelated but like. I only found out yesterday that I was world level 5 and I was like HUHH and am going to reduce it back to 2 to make my life easier

To my fellow Genshin fans, what's ur main team?
(I have hyperbloom team with Nahida, Barbara, Lisa and Yanfei as backup DPS if Lisa dies) ~@st4rrlight
