

Ok so, when you post a drawing to notability try circling it with the lasso tool and group it together. This causes the system to go EIEIEIEIEIEIEI so it thinks it's a blank note. Then when you post it, it doesn't have to be reviewed.

Also someone is trying to ban people (possibly people with a lot of followers) by spam reporting their notes. I don't know their motive but it's either because their jealous, they have beef, or their doing it mindlessly. But if there's one thing I know about humans is, when they do something to hurt someone, they have a motive (unless their not ok in the mind).

4 people have been banned so far and only 1 has gotten their account back so be careful everyone.
