

! ALSO RETP!

Adding on to my previous post I will clear this up. @marvel_3000 does trace SOMETIMES. I have only seen 1 post that is traced. If you guys think I am lying I can't change your mind but she is in almost all my classes and draws every time. I have personally seen her trace. And although she denies it she in fact DOES trace. The iron man post that is FREEKING accurate IS in face a trace. I have seen it she sits right next to me and I saw it personally. I'm not trying to put the blame on her I'm trying to clear things up. I'm not trying to be rude and I'm sorry if I do sound rude.
