

aaaah i'm back so sorry i was inactive for such a long time. i'll probably be a bit more active, but not as active as i used to be. i don't have notability plus or whatever that lets you make colors and things, because that was on my school ipad, but i will be able to upload photos of art and chat or just make art with crappy colors lol.

to make up for the time, i'm going to do a q&a, you can ask me questions in the comments and i'll probably make another separate note asking for questions as well

also you can give me project ideas if u want because i haven't been active in a while so idk what to post lol
