

My Sister

By Willow

I love you like it's the end of the world

You are my other half; my PB&J

I will grab your hand and give you a twirl

You are my sister, the night to my day

I will protect you with all my life force

You are my best friend forever ever

I will protect you, I will reinforce

No lie, I will go with you wherever

You are my little ez, my cute sister

You play with your toys, and snuggle the pets

You can talk to me, my great listener

Together we can bake some great baguettes

Oh, my little sister, my little bear

Together we will make the perfect pair
