

The best and fastest way to see the hunger games chapters and stories will be on my wattpad, @petal_skies. The reason for this is because the hunger games is obviously not the most family friendly concept lol and notability might quarantine it or take up to a week or two to approve it. As soon as I finish any chapter for the hunger games, it will go up on my wattpad and I will post it to the gallery.

Basically, Wattpad is like the early access option. If you'd prefer to stay on notability, that's ok! But they will be days to weeks later most likely.

Also, as an update, the Reaping Day will be released later this week most likely.

Thanks!
