Hey u guys, I just want to say sorry for not posting much for a while, but I'm working on something good!!!! Ik that most of my posts are other people's stickers but I'm deciding I want to go away from that and make my own stickers for once. The first step of this was me just coloring in some coloring sheets to make stickers, which yes is still like 1/2 of other peoples work I'm uploading but it's still practice for making my first stickers! Im planning on making Duolingo stickers, which, yes, is very random. But the reason why is the acc I have for notability is on my school iPad- which since im bored at school I have a Duolingo collection in my photos. Can the school see this and they are probably concerned, yes. Are my friends concerned, yes. But since duo has so many emotions and is silly, why not make stickers? I found only ONE Duolingo sticker on here so I'm determined to make a army of Duolingo stickers. I'll include the Duolingo sticker i found that I didn't make but I'll credit! On the next page I'll show some of the Duolingo stickers I plan on making!

# Duo's 1 plan on making!
