

So we were going on our monthly field trip, and we were going to sm roller skating place. I was talking to my friends in the back of me and i looked at this one girl i didn't really know, right next to one of my friends. (I was popular back then :P) she then glared at me and raised her hand. I was so confused, oml. The teacher came over, and guess what she said? " teacher, this girl is looking at me." The teacher rolled her eyes and started going back, when the girl also said " she also threatened to hurt me!" This time the teacher turned to me, and asked if this was true. I said no, and then miss gorlypop started fake-crying and saying i had already punched her, really hard. She then, **IN FRONT OF ZE TEACHER**, looked at the window, and put red marker all over her face. It didn't even look real, which was super funny. When the field trip was over, we were walking out of our bus, and she punched my shoulder, which surprised me enough that i tripped, and fell, face-flat on the concrete floor. Half on the floor, half on the bus. **AND THEN SHE STEPPED ON MAH ARM**. She got suspended, and when she "apologized" she said, that's what you get for punching me. Story time for when i was in 3rd grade (year 4 for me, i was in a British school)
