

Some Have colored
teeth/internal Bones
↓
on/off

Bones also
PINK

Just
the teeth

Some have a naturally dark
lower lip
this is usually
a masculine trait

(She has no front
view yet :c)

those with higher
metabolism are more
likely to grow over
ribs

outer ribs usually
will not change with
weight gain and can
lead to health problems

this can be fixed
with surgery or
shapeshifting

Very Lgbtq+
Species!!

able to mate with other
Species

Females are typically seen
as Strong, Beautiful, and dominant
especially if they have extreme
features

(Bald, excessive fur, off color)
