

## Grammar Essay One Paragraph.

April/Spring Break. San Francisco, C.A.

On spring break, I will be going to San Francisco, in California. I want to go to San Francisco because of its beautiful Golden Gate Bridge, historical cable cars, the beautiful Victorian Architecture. The Golden Gate Bridge is something I would love to cross because of it's amazing view all over the west coast of California. The population of Native Americans in California region may have been as high as 275,000 before the Spanish arrival. The first exploration of California was in 1542, when Juan Rodriguez Cabrillo positioned his ship in San Diego Bay and took the land for Spain. On January 24, 1848, James Wilson Marshall saw gold at sutter's mill along American River close to coloma. The cable cars can take me anywhere in S.F, showing me all around the scenery, while the Victorian Architecture of the houses look weird but are very satisfying. In San Francisco I plan to cross the Golden Gate Bridge, go to a S.F 49ers game, S.F Giants game, and just look at the beautiful seals with the scenery. Since the climate will be in the low 60's and 50's, I would be bringing sweatpants, sweatshirt, and Jacket. And I would also be taking good sneakers.
