

The only way I could do that was if you had the same number and the exact time and location and then we can get a quote and get that fixed so I don't think I could go to a repair job that day I just want the job that we could go there for you guys are we just don't want the money for it I think I could go back there but if we need a job and then you could come here or we just need the one and we would just pay it back for it I guess and if.
