

# Chemotherapeutic Precautions

Don't breathe in chemotherapeutic agents

- Do not directly touch them
  - Wear protective gloves
  - Wear protective gown

Do not go near or administer chemotherapeutic agents if you are pregnant

Wear protective eyewear

Do not eat or drink in the drug prep area

Dispose of chemotherapy hazardous waste properly

Equalize pressure in chemotherapy drug vial, so it doesn't aerosolize

Wear gloves to empty urinal or bedpan if patient is receiving chemo
