Writing Linear Equations

Write the slope-intercept form of the equation of each line.

1)

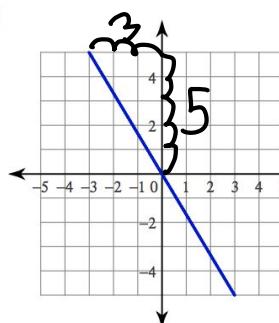

$$m = -\frac{3}{2}$$

$$b = 4$$

$$y = -\frac{3}{2}x + 4$$

2)

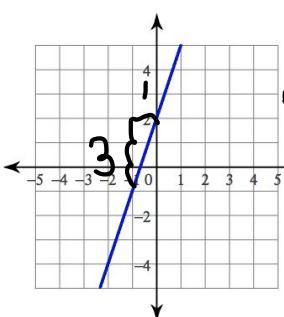

$$m = -\frac{3}{5}$$

$$b = 0$$

$$y = -\frac{3}{5}x + 0$$

3)

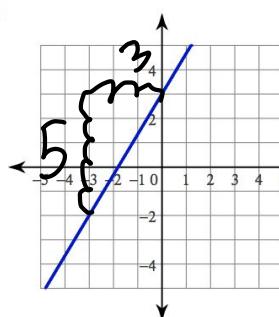

$$m = \frac{1}{3}$$

$$b = 2$$

$$y = \frac{1}{3}x + 2$$

4)

$$m = \frac{3}{5}$$

$$b = 3$$

$$y = \frac{3}{5}x + 3$$
